This Article is brought to you for free and open access by University Libraries at IdeaExchange@UAkron, the institutional repository of The University of Akron in Akron, Ohio, USA. It has been accepted for inclusion in Electronic Resources Quarterly Updates by an authorized administrator of IdeaExchange@UAkron. For more information, please contact mjon@uakron.edu, uapress@uakron.edu.

Electronic Resources Updates – 2020 Q3

The following information contains updates to the University Libraries collections and electronic resources for the third quarter of 2020. We are providing this information to update you about resources you are gaining or losing access to in the collection. We plan to publish collections and electronic resource changes quarterly to keep the campus community updated. Below you will also find information about significant projects and changes related to collections and electronic resources. **Past and future updates can be found at <https://ideaexchange.uakron.edu/erupdates/>**

New OhioLINK Electronic Book Platform

OhioLINK has soft launched their new ebook platform. This new platform is a large improvement that provides OhioLINK ebook users a friendlier interface, accessibility improvements, and an overall easier experience. Users should be aware that not all OhioLINK ebooks have migrated to the new platform as of yet. The full migration is scheduled to be complete in December 2020. This means users may want to check for ebooks on both the [new platform](#) and the [old platform](#), both of which can be found on our [A-Z Database list](#).

Updates on existing UL Collections and Electronic Resources

America's News – We previously reported access to this database would be expiring on 12/31/20. However, we have worked with the provider to extend our access to cover the entire academic year. Access will now end on 6/30/21.

Naxos Music Library – Content additions to this database will no longer be added to the library catalog. Users are advised to search both the catalog and directly within the database when seeking streaming music.

RILM: Répertoire International de Littérature Musicale – Our version of RILM has been upgraded through OhioLINK. The previous version of this database covered 1967 and forward. Our upgraded version includes the entire RILM database.

Cancellations

Budget reductions and additional stressors, including a reduction in students fees collected due to declining enrollment, have made it necessary for UL to cancel resources. UL is working hard to renegotiate pricing on current resources in an effort to minimize the amount of necessary cancellations. We are hopeful to be in a position to add back some content in the spring as we realize savings from renegotiated renewals and have a better picture of our funding from student fees. Cancellations are necessary at this time for UL to be able to meet our commitments. Additional collections information is provided via Digest and can be found in the 2020 Q2 report.

University Libraries will provide as much notice as possible when resources are to be discontinued in an effort to lessen disruption to our users. Reductions to library collections will continue to be shared via Digest updates and directly with departments. Additionally, University Libraries provides and archives a quarterly update of resource changes via IdeaExchange@UAkron.

Databases

Artstor (access ending 12/31/20) – This art database has been canceled due to low usage and budget considerations.

Kirk-Othmer Encyclopedia of Chemical Technology (access ending 12/31/20) – This resource has been canceled due to budget considerations.

PhilPapers (access ended 9/2/20) – This philosophy database has been canceled due to budget considerations.

Visible Body: Physiology Animations (access ended 8/14/20) – This streaming video database has been canceled due to low usage and budget considerations.

Journals and Other Serials

The below list of journals and other serials (e.g., newspapers) have been canceled. In the case of e-journals, in most cases the cancellation means we will no longer actively receive new content starting 1/1/21. However, for the majority of these titles we will retain access to our existing content even after the cancellation takes place and new content is no longer being received.
