Wendy L. Turocy

Happy anniversary, University of Akron! I am so thankful I got to spend four years with you. I started school in 1986, and I graduated with a teaching degree in Specific Learning Disabilities in 1990. During my last two years on campus, I had the privilege of serving as a resident assistant in Spanton Hall under Anne Eson Bruno. In the rooms of that dormitory lived some of the greatest people I've ever met. Those years established lifelong friendships and endless opportunities.

Of course, being a Spanton girl meant I spent a lot of time in Bulger Hall. In my senior year I attended a party with a dear friend who was a resident assistant in Bulger. It was there

that I met a young man who had previously lived in Bulger but currently lived in Wallaro (yes, it really existed). Ken Turocy graduated with an electrical engineering degree in May 1993, and we were married that August. Several University of Akron RAs, OAs, and students stood as bridesmaids and groomsmen when we took our vows, but what is really amazing is that in August 2018, they all stood with us again when we renewed them. Twenty-five years later! Here's to many more years of friendships, family, and love. Go Zips!
