

### **Commute**

*Michael John Denholm*

I graduated in 1977, attending from 1972 on. My recollection is the daily commute from home, as I lived in Stow. Back then, it was a grind, with the expressway not developed yet from Stow to the north part of Akron. So, I had to commute through Cuyahoga Falls to merge on to the expressway only at Cuyahoga Falls Avenue. A real grind, especially during poor weather, preparing me for a real-world work commute later on.
