

Faculty Senate Memory

Daniel Sheffer

During my terms as President of the Faculty Senate, I had the pleasure of being guided (tethered) by a Parliamentarian par excellence, Dr. Don R. Gerlach, Professor of History. Dr. Gerlach sat directly behind me at the front of the meeting room, and would frequently find it necessary to tap me on the shoulder with his note card and quietly whisper, "Mr. President, you cannot do (whatever, I was directing the Faculty Senate to do)." I have thought of this for many years and still it brings a smile to my face every time. Thank you for your service, Dr. Gerlach.
