Quotes:

- "I worked in the School of Nursing's Learning Resources Center all four years I was at Akron. My bosses were wonderful people with a passion for helping others. We still keep in touch and I'm so grateful for my on-campus job experience while at UA." - Elizabeth Holley '18
- "I worked in the Alumni Relations office from 1969 - 1973. It was a great experience. I met wonderful people, and it was so convenient to work between classes. I truly appreciate my time there." - Chris Ulichney '73
- "Trackside Grille 2006-2010. Loved every minute of it! One of my favorite jobs. Loved working with

other students, exchange students and UA Faculty. Still keep in touch with a few coworkers.” - Tiffany Strohmeyer

- “I worked at Central Stores. I packaged internal requests from staff for office supplies, among other things. One time when the university changed presidents, all of the miscellaneous household contents from the President’s home were inventoried by us. It was pretty cool to see everything. We also had an intramural softball team called the Central Stores Wild Boars, led by the best slow-pitch pitcher Akron U ever had, Gary Beckman. We were a really good team. It was a lot of fun working for Gary! Tons more stories that could be told!” - Amanda Bennett Snyder
- “I worked in the circulation department at Bierce Library. I met so many different types of people there, and I learned how to work with people of different types of cultures. This helped me to transition to what I do now as an Akron Firefighter/Paramedic.” - Will Carter ’14
- “I worked as a lifeguard at the ONAT pool around 1991-1992. I liked the job, but I had to be there at like five a.m. or something awful like that to open the pool. It was the only shift I could do while going to school full-time and working part-time at

the Ayres Branch Library.” - Amanda Lehmann '92

- “I worked as a DJ, an assistant program manager, and a trainer in the Radio Lab rooms at WZIP. Then I worked in the Media Lab assisting students on their required photo and film projects. After that I wrote a column for the school newspaper. I did all of this as an undergrad in the mid-1980s.” - Michelle De Long '88
- “I worked as a student manager for the football team. I loved it! While working with the team we won the MAC Championship in 2005.” - Brian Caperones '09
- “I worked for 3.5 years in the cataloging room of the library. 1962-65. Learned to drink my coffee black from my coworkers! Also learned a lot about the Dewey Decimal System. Not only did I enjoy the work, I was grateful for the job. And I was able to add my time there to my retirement with OPERS. It just keeps on giving. Thank you, Akron U.” - Pat White Whitney
- “I was the janitor at the grounds department. I worked mostly at night when no one was there. It was somewhat creepy at times when it was late!” - Sherri Starcher Muhlenkamp '91
