Title of Proposed Project: Around the world in 18 Songs	
Major: Vocal Performance	Graduation (semester/year): Summer 2020

Please include a brief (maximum 200 words) summary of your proposed project

In my project, "Around the World in 18 Songs", I will be creating and performing a concert of 18 songs in 18 different languages. This will be building off of my studies of Art/Folk Song, Diction, and Languages through the School of Music and Honors College. The idea of this project is to show music to be something that universally connects people from across the globe. While paying respect to each piece to be analyzed in it's own right, I will also be comparing/contrasting them with other peices. This will also go for each of the languages. I want to show the similarities between them, to highlight a connection that many may not realize existed. At the same time, I want to celebrate their differences, highlighting things that ny listner can appreciate and enjoy, regardless of background. The academic impact will be an awakened interest in the music and culture of other people, as well as a combattance against ignorance by seeing more similarities than differences.
